2) wireless - data transfer into Radio frequency

3) switch in 8 Answer:

1	+T
2	-T
3	+R
4	+V
5	-V
6	-R
7	X
8	X

3) connecting between cables
Routers

same function = cross cables

4) Auto MDIX

When 2 device network are same function different function use can use straight also cross cables by help of Auto MDIX pins will be change automatically.

5) POE Injector

+V and -V POE
POS is power over Ethernet

6) skip

7) types of Nic

wired $\rightarrow$ Binary - Electric signal

Electric signal $\rightarrow$ Binary

wireless $\rightarrow$ Binary to Radio frequency

Radio frequency to Binary

functions :-

Pc	+T	-T	+R	-R
	1	2	3	6
Router	1	2	3	6
Switch	3	6	1	2
